			<p><b>Regarding POCT Services</b></p> <p>As per your Annexure-VI, point no. 7 “import license showing that the quoted product are being imported and sold in India for last three years”- POCT services does not have valid import licenses for all the product are being imported and sold in India <b>for last three years –</b> This is the reason, for which you had hold their payment in the recent past.</p> <p>Sir, the reagent tender is floating for last one year and we all understand about your “Corrigendum III “Where you have changed the tailor made “Technical specification” for convenience for one particular company to comply the set and designed to suit and favored.</p> <p>We would like to request you to please allow a fair competition and benefits for common people and smooth functioning of analyser purchased by BMSICL for all remote health center by investing multi millions of rupees which will go in vein due to such favorable approach.</p> <p>We still have faith on you to look after the unbiased tendering procedure and take decision accordingly.</p>		<p>The Government has submitted the valid import license for all floated Biochemistry reagents &amp; fulfills the criteria as laid down in Clause 3 (g).</p> <p>Hence the raised Claim/ Objection is not tenable and disposed.</p>
3.	Sidharth goel through sidharth.goel321@gmail.com	01.05.2019 at 09:59 AM	<p>Kopran Laboratories Ltd. has again participated in the bidding process. In their earlier participation (Tender No.: BMSIC/REAGENT/18-02), Kopran Laboratories wasn't in possession of valid import licenses for 3 parameters namely acid phosphatase, cholinesterase and ferritin and didn't qualify for further evaluation. However, it has come to our notice that this time around they have participated in the bidding process by furnishing the import licenses of their sister concern companies which has been considered by BMSICL authorities for further evaluation.</p> <p>This is in complete contradiction to the guidelines and conditions of the tender document where it has been specifically mentioned that the eligibility document furnished by the bidder for participation should belong to the bidding firm only. So, the documents of a sister concern company should not be considered for</p>	<p><b>Supporting documents not submitted</b></p>	<p>The detailed clause wise technical evaluation status/ findings along with the remarks of the TEC are mentioned in table 1.</p> <p>Hence the raised Claim/ Objection is not tenable and disposed.</p>

			<p>bid evaluation, hence, the bid from such a company which is producing the documents of their sister concern companies should be considered as non-responsive.</p> <p>So, considering bids of such bidders for further evaluation is a complete breach to the tender guidelines and objectionable. Thus, it is requested to disqualify Kopran Laboratories Pvt. Ltd. for not meeting the eligibility criteria and should not be considered for further evaluation. Such an unwarranted relaxation in the bidding terms provided to the bidder should be severely discouraged and appropriate actions must be taken to disqualify Kopran Laboratories Pvt. Ltd.</p>	
4.	Labx through info@labx.in	30.04.2019 at 14:27 PM	<p>It has been observed that Kopran Laboratories Ltd., being one of the bidders in the process wasn't in the possession of valid import licenses and that they participated in the bidding by submission of the import licenses of their subsidiary/group/sister concern companies. In contrariety to the minimum eligibility criteria laid down in the clause 3 of the tender document, the import licenses furnished by Kopran have been considered by the corporation for further evaluation.</p> <p>We'd like to apprise you that the conditions laid down in the clause 3 specifically mentions to produce the eligibility document pertaining to the bidder firm only, whereas, a sister concern or a group company having a separate legal entity cannot be considered for evaluation of the bid. In such a case, the bidder company would be acting as a third party agent which is absolutely prohibited as per the essential terms &amp; conditions for supply of reagents given in the bid document and hence, liable to be rejected on the aforementioned grounds.</p> <p>Apart from the above, clause 5- "General Conditions" of the bid document also clearly states that only the direct importers or the manufacturers are eligible to participate in the tender whereas the distributors/agents/loan licenses/contract manufacturers are not eligible to participate in the tender. Therefore, in context of our aforesaid</p>	<p><b>Supporting documents not submitted</b></p> <p>The detailed clause wise technical evaluation status/findings along with the remarks of the TEC are mentioned in table 1.</p> <p>Hence, the raised Claim/ Objection is not tenable and disposed.</p>

			facts and submission, we'd request your good self to consider our objection and disqualify Kopran Laboratories Pvt. Ltd. for not meeting the preliminary eligibility criteria and hence, from further evaluation.		
5.	Transasia Biomedicals Ltd	03-05-19 Hard copy submitted	<p>We are the manufacture of Bio-Chemistry reagents, Automated and Semi Automated Clinical Chemistry Analyser for more- than 40 Years. We have also supplied and installed good number of semi Auto analyser in your different health center/ Institute. We never came through this type of biased technical specification and terms &amp; Conditions. In your pre bid meeting we have raised our point's number of times and requested for general specification, so that the importer as well as the Indian manufacturer can also participate against this tender. But you are only interested in one or two companies and accordingly you have changed the specification, terms and conditions, which is not only violation of tender NIT Rules, it's a breach of ethics.</p> <p>We came to know that the Technical Evaluation has been done and approved by you for the above mentioned tender. But as per medical device rules, no company has submitted the valid import license (MD-14).</p> <p>Now only because of your biased reason the health department under scrutiny and patients are suffering but you are interested in only those two companies and you want to handover the whole health system (particularly the diagnosis part) to one particular company out of these two participants.</p>	<b>Supporting documents not submitted</b>	<p>The Technical evaluation status of all the participating bidders are mentioned in table-1.</p> <p>Hence, the raised Claim/ Objection is not tenable hence disposed.</p>

8. The TEC in its last meeting dated 14.05.19 was decided to meet again for final decision after **the receipt of the legal opinions**. Accordingly, the legal opinion has been sought for both the firms i.e., M/s Kopran Laboratories Limited & M/s Abbott Healthcare Pvt. Ltd. The bidder wise crux of the legal opinion is as follows:

- a) M/s Kopran Laboratories Limited: "It is well settled that the cutoff date to judge the eligibility of a bidder is the date of submission of the bid document. The bidder claims that it had applied before the competent authority for obtaining the import license for remaining three Biochemistry reagents on 25.10.2018, though before the issuance of NIT, but admittedly the firm did not possess valid import license for the said three items on the date of submission of the bid. Even if the firm is granted import license subsequently, that will not cure the deficiency, it had at the time of submission of the bid.

Accordingly, it would not be legally prudent to accept the tender conditionally in anticipation of grant of import license for remaining three items”.

- b) M/s Abbott Healthcare Pvt. Ltd.: “It is well settled that the cutoff date to judge the eligibility of a bidder is the date of submission of the bid document. Accordingly, no legal impediment in the decision of the Technical Evaluation Committee in declaring Abbott Health Care as technically qualified subject to the condition that it should produce the Board Resolution along with the Power of Attorney within the aforesaid stipulated period of 45 days, failing which the firm may be rejected from further tender process.

9. The Minutes of the TEC meeting dated 14.05.19 was uploaded on the web portal of BMSICL. The claim or objection that has been raised in the name of M/s Transasia Biomedicals Ltd. and its disposal was laid down at page no. 15 and 16 of the minutes of the TEC meeting. Regarding the involvement of M/s Transasia Biomedicals Ltd. as mentioned in the said minutes a letter has been received from the said firm on dated 27.05.19, representing the following points: -

“(i) We assured you that we have not issued any kind of Letter to BMSICL in recent past. Any Letter issued by Tansasia, used to have our Original Letter Head (white Letter Head with Blue Logo) & Original Signature.

(ii) Fake Letter received by you on our scanned letter Head is not an Original Letter Head (Scan Copy with black & white Logo) & the signature done by the name is not our employee. We do not have any employee of such name at our Kolkata, Patna or any office across India. Also, the signature is scanned one on the letter received by you.

(iii) The content of this fake letter is in regard to complain against the Reagent Tender for Semi Auto & Fully Auto Analyzer of BMSICL. We would like to inform you that we had attained the pre bid meeting against this Regent tender at your office. We had raised clarification against certain clauses for amendment for which we had asked by BMSICL to submit the letter through mail. We had submitted the same through mail. We did not participate against this tender as no changes has been done on your amended Tender. When we did not participate against this Tender, then why we will send such type of letter after four months of the tender due date.

(iv) Further we would like to inform you that Tansasia is the NO. 1 Company in India in IVD Industry. We are associated with all State Govt. & Central Govt. for past 40 Years across the Country. We have a very good track record & having excellent relations with all our Customers. Being a Professional Company, we cannot even think to write such type of letter to a Government & Prestigious Organization like BMSICL with whom we are associated since 2014 & kept our commitment till date.

(v) It clearly shows that some other company has used our scanned Letter Head & issued this letter to create a bad image of Tansasia in front of BMSICL so that they can free to do all mischiefs & financial frauds when the biggest IVD company of India is out of the contention.”

10. M/s Abbott Healthcare Pvt. Ltd., the firm has submitted the following documents through its mail (from mail Id: tarun.tripathi@abbott.com) dated 19.06.19:

- i) Certified true copy of the Resolution passed by the Board of Directors at its Meeting held on February 28, 2018.
- ii) Authorization to sign on behalf of the company.
- iii) Power of Attorney.

11. After consideration of all the above facts, the bidder wise technical evaluation status is as follows:

Sl No.	Name of the Bidder	Technical Evaluation status
1	Abbott Healthcare Pvt. Ltd.	<b>Technically Qualified</b> with the condition that the bidder shall produce original documents (Hard Copy) related to board resolution and power of attorney along with the signature and designation of the power of attorney provider within 45 days from the date of their submitted undertaking i.e., 14.05.19 or before the award of contract (if they are becoming L1) whichever is earlier. In case, failure to submit the same within the stipulated time period the firm may be rejected from further tender process.
2	Kopran Laboratories Limited	<b>Technically Disqualified</b>
3	LabX	<b>Technically Disqualified</b>
4	POCT Services	<b>Technically Qualified</b>

The TEC in today's meeting unanimously decided to recommend for opening of the financial bids of the following bidding firms:

1. M/s Abbott Healthcare Pvt. Ltd.
2. M/s POCT Services Pvt. Ltd.

12. The meeting was thus concluded with a vote of thanks.
